For assistance in registering, call extension [redacted] 25X1A

This new course on the Geography of Communist China, essentially for non-geographers, is for Intelligence Officers who would benefit from an integrated view of the environment of Communist China. A text has been especially compiled for use in this course. The Foreward to the text states, "This course concentrates on those elements of the environment (both natural and cultural) that would normally be observable and that can influence the political, economic, military, or foreign relations

(Over, please)
